

Recommended by your immigration lawyer

Pass your citizenship language exam.

Your lawyer recommends Prep2Go.

Prep2Go prepares clients for CIPLE, DELE, DELF, CELI, and DTZ. Start with a mock readiness check, see section scores, then close gaps with exam-format practice — async, no Zoom required.

Free mock check

No card to start

30-day refund on Pro

Why Duolingo alone is not enough

Citizenship exams require a minimum score in every section — not just overall. You can score well in total and still fail one weak skill. Prep2Go tracks readiness section by section and warns you before you book — and waste €150 on an exam you are not ready for.

What is included

Mock exam simulator	Full-length timed tests in real exam format. AI scoring included.
Study plan to your date	Built around your exam date. About 20 min/day, no fixed schedule.
Section readiness	See where you stand in each skill before you register.
AI writing feedback	Instant scoring on structure, vocabulary, and word count.
AI speaking practice	Full speaking simulation. Practice any time, no tutor needed.
1,000+ vocabulary words	Frequency-ranked with native audio. What actually appears on the exam.

How to start

- 1 Open the link your lawyer sent you.
- 2 Take the free mock readiness check.
- 3 Review your section scores before booking the real exam.
- 4 Close weak areas with the deck, app, or Pro — only if you need guided repair.

30-day money-back guarantee on paid plans. Full refund if you are not satisfied.

Pro from €29/mo · Anki decks and mock packs also available

The 25% trap

Each section (Reading, Listening, Writing, Speaking) has its own minimum score. Most candidates only learn this after they fail.

Section readiness score

Know if you are ready in each section before you book.

vs. the alternatives

Duolingo / Babbel	General language learning. No exam format. No readiness score.
Private tutor	€25–50/hr. Fixed schedule. No readiness tracking.
YouTube	No structure. No feedback. No readiness score.
Prep2Go	Exam format only. Personalized. Section readiness. AI feedback. ~20 min/day.
